

THE GLEICHEN CALL

VOLUME 45 NO. 22

Published as second class mail, Post Office Department, Ottawa, GLEICHEN, ALBERTA, WEDNESDAY AUGUST 13, 1952

SUBSCRIPTION \$2.00 PER YEAR

Town & District

Bert Reid has left for Vancouver where he will visit relatives for a couple of weeks.

Mrs. E. Menard has her mother, Mrs. Sauve, and her sister visiting here. They arrived last week from California.

Raymond Menard arrived in town Saturday to visit his mother and daughters. He has since left for Saskatchewan to bring back his wife who is visiting relatives in that province.

Mrs. J. Klokold spent the past month visiting her daughter in Portland, Ore., and her brother in California. On her way home she stopped for an X-ray unit in the general hospital there.

Mr. and Mrs. Allen Bogstie and family are holidaying at Marysville, B.C. They are the guests of Walter Bogstie.

Mrs. Bert Robinson has been confined to her home for the past couple of weeks with an attack of flu.

Beverly Bogstie, daughter of Mr. and Mrs. Allen Bogstie is winner of the Blanche Robinson Scholarship for obtaining highest marks in the piano class, and is entitled to one year's tuition free.

Mrs. B. Robinson A.R.C.T., L.T.C.L., R.M.T., will resume classes on Mondays beginning Sept. 1st. Her piano, theory, also ladies classes.

"I am very much minded" said the professor. "I often find names and telephone numbers in my name book but I can't remember what person they represent. Recently I had a general checking up. The name and address of one man baffled me, so I wrote him, asking if he had ever heard of me and if I was supposed to do something for him. He wrote back a laudatory letter, saying I had already done it. He was my wife's first husband."

While in Gleichen visiting their parents Mr. and Mrs. C. H. Booby of Arvida, Que., had their son christened at St. Andrew's church, Colin Ianrie by Rev. Penat.

Alberta History

In return for building a railway through a great lone land the C.P.R. was allowed to select some twenty five million acres of land that was described as being "fairly fit for settlement." In 1903 having disposed of most of the land in Manitoba and Saskatchewan the company took over a large area close to their main line between Calgary and Medicine Hat. The officers could have chosen land in the north where there was something appealing to them in promoting irrigation scheme that would reclaim an area of fertile land in sunny Southern Alberta where water only was required for intensive farming.

Irrigation is not new in Southern Alberta. In the late eighties the Mormons at Cardston, long accustomed to irrigation made use of the mountain streams in a small way.

After building the narrow gauge railway from Medicine Hat to Lethbridge the Alberta Railway and Irrigation Company had a million acres of land as a subsidy. The work of diverting water from the St. Mary's River started in 1897. Most of the labor was done by Mormon farmers, who were paid half in cash and half in land grants. The C.P.R. line was built for the traffic for their line was increased as the scheme developed gave a grant of \$5,000 every six months and the town of Lethbridge contributed \$50,000. Water reached the Lethbridge area in 1900 and Margath and Sterling the following year. With the completion of the project there remained the difficult problem of settling the land. The President and High Council of the Latter-day Saints took up large areas for the Mormon farmers, but aside from that there was at that time little demand for settled land. The company even offered free use of the land for two years with the option then to purchase without appeal. The demand

was against the company because throughout the whole period of construction the rainfall had been abnormally heavy. Possible purchasers thought drainage instead of irrigation was needed. A dry cycle later dispelled all doubts as to the need of irrigation. The company worked faithfully and between 1902 and 1912 much in the way of settlement was accomplished. The area was taken over by the C.P.R. in 1912.

OBITUARY

MRS. GLEN C. HOUSE

The death of Mrs. Glen C. House of Arrowwood at Kamloops, B.C., last Wednesday evening removed one of the old timers of the district. Several weeks ago Mrs. House accompanied by her husband and Mr. and Mrs. H. Messenger of Arrowwood went to British Columbia for a holiday. While at Salmon Arm Mrs. House fell on the doorstep of a house where they were staying and fractured her hip. She was taken to the Kamloops hospital and underwent an operation and the broken bone set. Other complications arose and after about five weeks she died.

Mrs. House was born in Chester, Missouri in 1877. On October 15, 1905 she and Mr. House were married. In the year 1906 they moved to the Arrowwood district where she resided since that time with the exception of a few years spent in Gleichen.

Besides her husband Mrs. House is survived by three sons: Clyde of High River, Forest and Rene of Arrowwood; two daughters: Mrs. Glen of Okotoks and Mrs. Teiford of Vancouver; 13 grand children and 14 great grand children.

Funeral services were held Monday afternoon at 1:30 in the Arrowwood Church of the Brethren Rev. Dawson of Champion officiating. After the service the remains were taken to Calgary for cremation.

There was a very large attendance at the funeral. Friends from Gleichen to High River attending. The many floral offerings showed the respect Mrs. House held in the community.

The honorary pallbearers were Lin Miller, A. Messenger, A. Ingraham and F. McInelly.

Active pallbearers: R. Hill, G. Ingraham, T. Barry, T. Board and W. Steiner. Funeral arrangements were in charge of G. W. Evans, Gleichen.

FLOCK APPROVAL

Flock approval regulations and application forms are now being mailed to all approved flock owners. These regulations should be studied carefully in order that the members may become familiar with the changes effective this season. Co-operation in filling out these forms and returning them promptly to the Poultry Branch, Department of Agriculture, Edmonton, will be greatly appreciated. Flock owners are advised to carefully check their flocks prior to time of inspection. The saving in feed costs alone will more than compensate for the extra labor involved, in addition to the saving in time during inspection. Remove all birds which are not approved, and remove those showing standard disqualifications with which most of the approved flock owners are now familiar. Many advantages accrue to the flock owner who produces hatching eggs, says Mr. F. J. Hignelson, head of Alberta Department of Agriculture's Poultry Branch. Alberta is now a high quality flocks to produce all the hatching eggs needed in the province. The chief requirements for producing eggs are good quality flocks and efficient management.

"Obed the prisoner at the bar," "John, have I got to be tried by a jury?"

"Be quiet," whispered his lawyer, "I can't be a silly Judge, I can't even fool my wife, let alone six strange women. I'm guilty."

Much against his will, the young suitor had been persuaded to go through the formality of stating his intentions to his prospective father-in-law.

"So you want to become my son-in-law, do you?" the old man remarked. "Franklyn," returned the suitor, "but I see no way out of it if I want to marry your daughter."

Daily Vacation Bible School

It was our privilege as christian workers of the Alberta Children's Mission to conduct D.V.B.S. this summer in Gleichen. We are grateful to the community, for the use of the Recreation Centre as well as to the parents for giving us full support. It has been a pleasure to see twenty nine children pass through our doors during the two weeks. Our daily program consisted of morning worship, Bible, flannelgraph object and geography lessons, as well as fifty minutes of heavy singing. A recess period of games was also included.

We as well as the angels of heaven rejoice over the fourteen of them that accepted the Lord Jesus Christ as Saviour according to John 1:12. "But as many as received him to them he gave power to become the sons of God."

The two weeks of D.V.B.S. were brought to a climax by a program held August 8 at the Recreation Centre. It was our privilege to have a guest speaker. By the children it was considered a high light of the two weeks.

We challenge all readers to accept this free gift of salvation that He alone has to offer us. "For how shall we escape if we neglect so great Salvation." Hebrews 2:3.—The Workers.

HERE AND THERE

Tom Robinson of Calgary spent Friday in town looking after his business interests here. While here he took the opportunity of looking up the old friends.

Mr. and Mrs. Farquharson returned to town Friday night after spending several weeks visiting Prince Edward Island and a large number of other places between there and here.

Mr. and Mrs. Eugene Lester and six children of Red Deer and Mr. and Mrs. S. E. Lester have just returned from a trip to Great Falls, Mont. They came home through the Glacier on the "Going to the Sun Highway" which report was a very interesting scenic highway.

A FEW FIGURES

"If a giant magnet," began the statistician, "could gather up all the mails on all the high-ways of our country, do you know what they would weigh?"

"No!" replied the lunch guest, "but I have a wonderful idea. A very wonderful idea."

"They would weigh a thousand tons," went on the man who asked questions just to answer them. The polite listener shifted uneasily but nodded his head and tried to think of something to change the subject.

"Figures are fascinating," continued the talkative host. "Perhaps you know how many hours the average man spends in bed, wailing sleep?"

"That's why I'm yawning perhaps," ventured the guest.

"We spend time yawning too, and looking out of windows," agreed the statistician.

"The human adding machine shook his head. "I'm afraid you do not estimate over numbers and their mysteriousness." "Now, take lunch time, most of us spend about two years just eating noon day meals. Think."

"But I try not to think of it, which reminds me I have some very important persons waiting for me at the office," the guest suggested.

"We spend another two years, average men, I mean, waiting in reputation ridges, offices, hotels, barber shops—"

"But one of those persons waiting for me is my wife," the other interrupted finally.

"That's different," cried the host. "Why didn't you say? Waiter, let me have the check please."

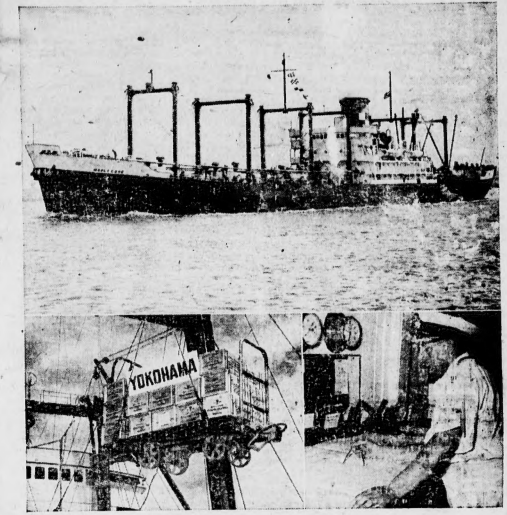

GLEICHEN UNITED CHURCH

Services as follows for the month of August:

Sunday, August 17th, Service at 7:30. Major A. F. Parkinson in charge.

Sunday, August 24th, Service at 7:30.

Since 1945 total non-defence government expenditure in Canada includes federal municipal and provincial governments—have increased about \$1,000,000,000 annually.

FAIR EAST BOUND

To the Canadian Pacific Steamships' 10,000 ton cargo vessel. Many have given the honor of being the first company ship to return to

since World War II. The ship which sailed from Montreal recently, is headed for Vancouver, where she will take on the balance of her cargo. The route for the new service will be sister ship Mapledale.

Holiday by the BLUE PACIFIC

Away from the heat, in beautiful Vancouver, gracious Victoria, you'll find a vacation to be remembered. And your holiday's perfect from your travel in the comfort of air-conditioned Canadian Pacific coaches, economical roomettes and deluxe sleeping cars.

"But I try not to think of it, which reminds me I have some very important persons waiting for me at the office," the guest suggested.

"We spend another two years, average men, I mean, waiting in reputation ridges, offices, hotels, barber shops—"

"But one of those persons waiting for me is my wife," the other interrupted finally.

"That's different," cried the host. "Why didn't you say? Waiter, let me have the check please."

Start Them Young

Junior farm club work is rendering a practical service to Canadian agriculture. The organization and its leadership train young people in the best farm practices and home economics, which lead to "self-help and community betterment."

The Canadian Bank of Commerce has pleasure in sponsoring this new booklet, in recognition of the valuable work being done by the Junior farm clubs across Canada.

You can help to widen the usefulness of this organization by taking an interest in its work, and giving it your support and encouragement.

Get this free booklet from your branch of The Canadian Bank of Commerce.

SOME OUTSTANDING FLOWERS

If selecting newer flowers for the prairie home the suggestion is offered that a visit be paid to the newest good flower grower or experimental farm during the midsummer, rather than make selections from catalogues next winter. There are a number of recent introductions who are well suited for the prairie home garden and make attractive additions to the well known varieties. It is suggested double petunias as a splendid addition to this price of annual flowers for the prairie. Large double blooms with frilled edges make the old single petunia achieve a new beauty. Some good varieties are those of Canada and Canadian Double.

Kirkwell asters, although on the market a few years, do not appear to be well known. Although started inside they do not bloom till midsummer but flower before the commonly grown asters. The Kirkwells are dwarf in habit, bushy in growth, and the small compact blooms in several colors are most attractive.

Pacific Hybrid Delphiniums are worthy of any garden-lover's consideration with their large compact flower spikes available in different colors. They need shelter against wind and also need to be staked and tied. Apple treatment must be started in early spring to avoid disappointment with these delphiniums.

Loaf snapdragons come in a variety of colors and are a distinct addition as an edging plant. Rock Hybrid snapdragons can be bought in mixed colors but Baby Rose is one of those available in one shade. Selections of columbine in mixed colors make an attractive showing with fair long spurs. These appear to withstand our coldest winters without damage.

Individual tastes in flowers differ considerably and there are others not mentioned that may have greater appeal for some persons when seen in bloom.

The local paper should be found in every home. No child will grow up ignorant who can be taught to appreciate the home paper. It is the stepping stone of intelligence in all those matters not to be learned in books. Give your children a foreign paper which contains not one word about any person, place or thing which they ever saw or perhaps overheard of, and how can you expect them to be interested? But let them have the home paper and read of persons whom they meet and places with which they are familiar and soon interest is awakened and increasing with every arrival of the local paper. Thus the habit of reading is formed and those children will read the paper all their lives and become intelligent men and women a credit to their ancestors strong in their knowledge of the world as it is today.

Canada is one of the few countries in the world which has standard gauge railroads across the country. Fourteen ocean-going tankers of 1,600 or more gross tons fly the Canadian flag.

Lawyer: "Where did the car hit you?" Lady: "Well, if I had been wearing a license plate, it would have been badly damaged."

"Well, I do say!" said a dear old lady who tasted her first glass of beer. "It tastes exactly like the medicine my husband has been taking the last 30 years."

"... saved me days, perhaps weeks, of work"

After returning from his first trip to the West, a business man wrote his bank:

"I arrived having no idea where to start in to make the connections I required. The thought occurred to me that perhaps the bank, which has been very helpful to me on numerous occasions, would give me some guidance. Mr. W. proved to be of tremendous help. He introduced me to the people I should have met and saved me days, perhaps weeks, of work."

Every chartered bank works this way. Whether you walk into your neighborhood branch or one a thousand miles away, you will find the same full range of banking service—and the same readiness to help.

GUARDIANS OF PEACE

The Infantry Mortar Crew...

In attack and defence, the Mortar Crew adds to the effectiveness of Infantry. Accurate, concentrated firepower is vital to successful operation in the field. It calls for cool, highly trained men to operate the many complex weapons of the Infantry.

Canada's tough, independent Infantrymen are the finest fighting soldiers in the world. At home and overseas, these young men stand in the front lines of Canada's freedom.

There are outstanding career opportunities for young men in the Canadian Army Active Force. They are career opportunities with challenges of adventure, the excitement of travel in the most important job in Canada today—defence.

You are eligible for service in the Canadian Army Active Force if you are 17 to 40 years of age, tradesmen to 45, physically fit and ready to serve anywhere.
